

Aero Components, LLC, founded in 1978, is an OEM approved, full service manufacturer of complex bonded and composite assemblies. Our motto is Always Committed to Improvement. This core belief and operating philosophy is instilled in all of our team members so everyone feels empowered to perform their operation to the utmost quality standard.

We are currently looking to add a 1st shift Maintenance Technician to the team due to growth! 1st shift is Monday – Friday from 7:00 am – 3:30 pm. This role will require someone with the flexibility to work half days on Saturday as needed.

Position Summary:

As a member of the maintenance team, you will assist the Maintenance Manager with various preventative and routine maintenance projects as well as one off projects as needed. This is high-volume hands-on role.

Job Duties/Requirements:

- Must be able to work in a noisy manufacturing environment and be comfortable working in all weather conditions.
- 3+ years of experience working on machinery (CNC, Pumps, Motors and Forklifts)
- Must have own set of tools
- Able to work with very little supervision but not afraid to ask questions
- Electrical skills (wire machinery, run conduit, work with 3 phase up to 240V and understand 480V 3 phase) would be a plus but not required
- Experience working on small engines up to a forklift
- Experience working with battery and DC voltages
- Valid drivers license
 - Will be required to run errands on behalf of the company as needed

Physical Demands:

Stand, walk, push, pull, climb, reach overhead, and bend to the floor, as well as, exert 20 to 50 pounds of force occasionally, and/or exert 10 to 25 pounds of force frequently, and/or exert up to 10 pounds of force constantly to move objects.

To accomplish this job successfully, an individual must be able to perform, with or without reasonable accommodation, each essential function satisfactorily. Reasonable accommodations may be made to enable qualified individuals with disabilities to perform the essential functions.

Aero Components is registered with the U.S. State Department's Directorate of Defense Trade Controls (DDTC) and complies with requirements under the International Traffic in Arms Regulations (ITAR).
